Contours Beauty Salon in Tiptree

Contours has been established in Tiptree for 12 years now. Started by the proprietor Mrs Metson-Halsey and growing, Contours now has a good team of staff. Mrs Metson-Halsey keeps the team up to date with treatments and techniques, which is essential to a successful business, by sending the staff on training, and also going to the **Dermalogica** congresses every 2 years.

Contours started doing a large variety of treatments from **Jessica** Manicures, **Dermalogica** Facials, **CACI** Non Surgical Treatments, Massage and **La Stone Therapy** to **Intense Pulse Light treatments**, which treats Unwanted Hair, Ingrowing Hair, Rosacea, Facial Blood Vessels, Freckles, Skin Darkening, Sun Damage, Scars and Acne. Mr Roger Metson has been doing Chiropody in the salon, since it opened 12 years ago, and has a successful business, he is in the salon on Saturdays, Mondays and Tuesdays.

Contours is now offering a very exciting new specialized treatment within the salon. Performed by **Dr Mervyn Patterson**, the treatments that he performs are **Anti-Ageing Injections and Juvederm Fillers**, which can help Lines and Wrinkles, Drooping Eyelids, Nose and Mouth Lines, Depressed Cheeks, Sagging Jowles and Jawline and Underarm Sweating. As an experienced doctor in the field of aesthetics, Dr. Patterson will achieve the natural look and desire. Anti-wrinkle injections are a simple and easy way to improve the face by relaxing the harsh vertical lines between the eyes and significantly improving the horizontal lines on the forehead. Similar treatments to the side of the eyes can make a dramatic difference to the laughter lines.

Since Juvederm Ultra was launched, Dr. Patterson has pioneered this next generation dermal filler, achieving exceptional results. A dermal filler will treat nose to mouth lines, smile lines in the corners of the mouth, depression and blemishes and hollow or sunken cheeks. The results are natural, instantaneous and long lasting. **Dr Mervyn Patterson's** he has appeared on ITV, Breakfast Television, Trevor MacDonald's Tonight Programme, Live Television Broadcast (This Morning) and East Anglian Television.

**Dr. Patterson will be at Contours on Thursday 18th March,
for any information or advice, regarding the treatments.**
